Sucker Ring cup ring

- Medium - 813124

- Small - 813117

- **A ring that fits onto yoghurt cups and sticks them to the table**
- **2 models available depending on diameter required**

A ring that fits onto yoghurt cups and sticks them to the table. Ideal for frail elderly people or those with hemiplegia, this flexible neoprene ring slips onto the base of yoghurt cups or dessert bowls to secure them to the table like a suction cup. It can be used on any smooth, non-porous surface (lacquered or varnished wood, plastic-coated surfaces or oilcloth) to make it easier to eat without spilling. Simply lift the ring slightly with a finger to remove it.

The small Sucker Ring suction ring is suitable for yoghurt cups (stretches from 4 to 7.5 cm in diameter) and the Medium model is suitable for dessert bowls (stretches from 6 to 10 cm in diameter).
