

## Ergo plate Identités

- **Straight edge and sloping bottom**
- **Highly impact-resistant material**
- **Dishwasher and microwave guarantee**

Created by Identités, the Ergo plate is made of Copolyester Tritan, making it virtually unbreakable. It is favoured by occupational therapists because of its ideal characteristics for hemiplegic people and weak elderly people:

- high, straight edges that makes it easier to eat with one hand,
- a sloping bottom allowing liquid and semi-liquid food to be carried on one side of the plate, easier to take with a spoon thanks to the curved rim in the bottom and straight on the edges,
- a shape allowing the plates to be stackable, practical for storage,
- a material more resistant to scratches from knife blades,
- a material that guarantees a high impact resistance, falls on the tile do not have any effect,
- easy to grip non-slip edges: the graining used on the edges of the plate makes them easier to hold.

Dishwasher and microwave safe.

Total diameter: 24.5 cm, internal diameter: 18.2 cm. Total height: 3.8 cm. Internal rim height: from 2.2 to 3 cm.

Weight 183 gr.

6 colours available: white, neon blue, neon green, red, orange.

Pack of 20 plates available (5 blue, 5 green, 5 raspberry and 5 orange)

French manufacture.
