

Vario suction cup grab bar

- La nouvelle génération de barres à ventouses
- Réglable en longueur
- Ventouses à écartement réglable

The Vario suction cup grab bar is extremely robust due to its new suction cup locking technology. To secure the bar, simply turn the suction cup holder until you hear a click, ensuring that it is locked in place. The bar consists of two supports that can slide along the handrail to adjust the spacing, ideal for preventing it from falling off tile joints. The handrail is fitted with durable non-slip rubber for safety and comfort.

Suction cup diameter : 9.5 cm.

Total length : 41 cm.

Adjustable centre-to-centre distance : 20 to 35 cm.

Maximum length of handrail : 29.5 cm.

Colour : grey-white.
