Free-standing support for walking stick

- 816072

- **Stabilizer for walking stick**
- **Video presentation and use available below**

This stand provides more stability to your usual walking stick. Thanks to this special weighted foot, you can easily make your walking stick stand upright. And if your cane falls to the ground anyway, you can use your shoe to lever it upright.

Suitable for 19 mm tubes.

Height 9 cm.
Diameter 8 cm.
