Hydrating rehydration bottle

- 813190

This handy Hydrant rehydration bottle has been designed for elderly and dependent people who are reluctant to ask for assistance in drinking. The 1-litre airtight bottle can be placed on the back of a chair. The user drinks through a mouthpiece connected to the bottle by a flexible tube. The mouthpiece is equipped with a clothing clip. The special tube ensures that the liquid always remains at the edge of the mouthpiece without dripping. Graduated up to 900 ml. Dishwasher safe except for tube and mouthpiece.

Dimensions : height 23 cm, diameter 8 cm.
Tube length : 120 cm.
