

Danchair convertible high chair

- 821089

(On restock - Available from 18/03/2026)

- **Chair offering varied adjustment options**
- **Ultra-stable structure**

The Danchair adjustable high chair allows one to safely seat a child and adjust the chair as they grow, by means of its wide range of adjustment options.

The seat and tray can be fixed at different levels (14 different positions) by adjusting the seat height and the height between the seat and the tray. The backrest is equipped with a wooden guard rail and a strap to prevent the child from sliding forward. The fabric strap is removable and adjustable and can be attached with clips.

Extremely stable solid beechwood frame.

Dimensions : width 47 x depth 54 x height 81 cm.

Weight : 6 kg

Maximum user weight : 100 kg
