

**Electric heating pad for back and neck comfort**

- **Covers the entire back and neck**
- **Gentle, relaxing warmth**
- **Stimulates blood circulation and soothes muscle pain**

The electric heating pad for the back and neck is made of heat-conducting internal fibres. Plugged into the mains, it provides continuous gentle heat.

As well as providing warmth for those feeling the cold, the heat stimulates blood circulation and relaxes and soothes muscle pain. With its soft buckle and abdominal belt, the cushion can be adjusted to cover the entire back. 6 heat settings with backlit remote control.

The brown cover is made of microfibre that is washable at 40°C and closes with two press studs. High-quality brown bias binding. Overheating protection.

Power : 100W. Automatic shut-off after 90 minutes.

Dimensions : 63 x 43 cm.

The power cord is 2.30 m long, long enough to plug it in easily.

2-year warranty.
