

Positpro bed cushion

- Aubergine - 829033.A
- Taupe colour - 829033

- **S-shaped cushion that holds and supports the patient's shoulders, hips and back when lying down.**
- **Material from the latest innovations**
- **French manufacture**

Our PositPro cushions benefit from the technigel fibre, which gives unrivalled comfort for the patient. It surpasses the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It provides optimal cushioning to relieve pressure on the support points. They are fitted with the Steritex removable cover, the most resistant polyurethane on the market. Innovative, breathable and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in the community and adapted to the most stringent requirements in environments at risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 90°C. Resistant to chlorine and autoclave.

Very soft and comfortable to the touch.

Underwrap for 100% cotton fibre.

S-shaped cushion, holds and wedges the shoulders, hips and back of the patient in a lateral decubitus position at 30° left and right in a lying position. It limits the effects of friction. The use of the cushion relieves and distributes the patient's pressure points and prevents the development of pressure sores during the nursing phases.

Decubitus cushion
