Balance motor skills kit

- 405001

- **Various balance tracks with obstacles of various heights**
- **100% Made in France**

This motor skills kit is ideal for creating paths and obstacles to exercise overall motor skills for elderly individuals. It is possible to build a 7.20 m winding path using 24 beams and up to 4 obstacles of different heights to step over, pass under or pass through a hoop.

This kit includes :
20 half-spherical beams (10 straight and 10 curved)
4 35 cm pegs with holes
4 half-spherical pole bases
4 long poles - 100 cm
6 long poles - 120 cm
6 flat hoops - diameter 60 cm
8 pole-to-pole connectors
2 pole-to-flat hoop connectors
