Non-slip chair cushion

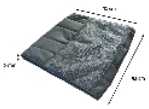

- 819145

- **No more confusion with the inscriptions**
- **Waterproof and disinfectable chair cushion**
- **100% made in France**

Identités have redesigned a cushion that allows a seated person to be sat upright without sliding forward again. This cushion is made from a special fabric that prevents it from sliding in either direction. The top is made from ventilated fabric with instructions on how to position it correctly, and the underside is made from a non-slip fabric. The cushion is padded for added comfort.

Generous dimensions for easy handling when the user is seated : width 41 cm x depth 41 cm.
Thickness : 5 mm
