

NON-SLIP CHAIR CUSHION

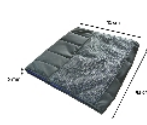

- No more confusion thanks to the inscriptions
- Waterproof and sanitizable chair cushion
- 100% made in France

We have redesigned a cushion that allows a seated person to be sat upright without sliding forward again. This cushion is made from a special fabric that prevents it from sliding in either direction. The top is made from ventilated fabric with instructions on how to position it correctly, and the underside is made from non-slip fabric. The cushion is padded for added comfort.

Generous dimensions for easy handling when the person is seated on it : width 41 x depth 41 cm.
Depth : 5 mm
