

Dulceo inflatable bath lift

- **Gentle and natural elevation**

The Dulceo bath lift operates using air pressure and inflatable cushions to raise and lower the seat. The inflatable seat and backrest guarantee comfort and safety due to the flexibility of the cushions. The lift is operated by remote control. Supplied with a low-pressure compressor that remains outside the bath, with no electrical cables submerged. Safety system allowing the user to be raised one last time in all circumstances. Smooth and natural lifting action.

Make sure that the bottom of the bath is smooth to ensure that the suction cups adhere firmly.

Variable height from 2 to 40 cm.

Backrest height : 33 cm.

Inflatable seat : 58 x 44 cm.

Maximum user weight : 150 kg

3-year warranty excluding the battery (6 months)
