

Securiseat

- 825014

The securiseat is a safety device for the exclusive use of disabled people who are at risk of inappropriate behaviour during transport. It prevents the seat belts from becoming unintentionally detached. Once the securiseat is fastened, it is no longer possible to remove the belt, except with the keys provided or your car key.

The kit consists of 1 buckle cover + 3 unlocking keys + 2 reducers + 1 instruction manual.
