

Flaxseed heating pads

- Neck cushion - 835176

- Small cushion - 835175

- The analgesic benefits of linen associated with heat
- Easy heating in the microwave

Our heating pads are filled with flaxseeds. They are a natural painkiller and is used in the composition of pain poultices. The seeds store the heat from the microwave and slowly release it for your well-being. The heat is relaxing to soothe minor muscle aches and tensions of the day.

Microwave heating only.

100% flaxseed filling and ultra-soft 100% polyester microfibre shell.

Colour: yellow.

2 models available: small cushion 30 x 20 cm and neck cushion diameter 30 cm.

Variantes :

- Neck cushion
- Small cushion
