

Weenect Silver GPS Tracker

- 817223

- **Senior tracking GPS beacon, ideal for securing your family and friends.**
- **Also suitable for use in the community**
- **Presentation video available below**

The Weenect Silver GPS beacon remains connected in real time to other users via a smartphone application. You can connect several different beacons (several people to be secured) to a single smartphone and also several smartphones to a single beacon. At any time, you can view where the user is, via the application. You can even predefine an area around the house, alerting you when it is exceeded. The beacon is equipped with an SOS button which can be activated by the user to call the predefined people.

Very light (55g) and waterproof beacon that slips into a pocket, attaches to a belt or carabiner thanks to its pocket.

Accuracy 3 meters. Autonomy 4 days. No distance limit, works in 68 countries.

3 subscription formulas at the time of registration of the tracker after purchase :
