

Sécurité bath access bar

- **Large non-slip grip**

This bath grab rail can be fixed to the edge of the bath and allows users to step over the edge easily. Ideal for elderly people with limited mobility. The grab rail features a high support rail to assist users in stepping over the edge of the bath and a lower support rail to assist users when sitting down and standing up. It can be fixed to the edge of the bath without tools using the large wheel. The top of the grab rail is non-slip due to its rubberised handle.

Colour: white/black.

Bath rim height : min. 8 cm, max. 12 cm.

Height above the bath : 37.5 cm.
