- 140 x 70 cm - 815022

- **Move patients effortlessly**
- **Avoids friction on the skin**
- **100% Made in France**

These ultra-smooth sheets, made in France, allow caregivers to move, reposition, and transfer bedridden patients very easily without having to lift them.
Cylindrical in shape, this transfer aid for disabled or mobility-impaired people allows patients to be moved by sliding between the two layers of the sheet.
Movement is regular and painless for patients. It facilitates the work of caregivers.
Also used to facilitate transfer onto a board.

Made of : 15% silicone and 85% polyamide, Colour : blue.
Washable at 60°C or sanitized with a spray.

7 sizes available :
- 70 x 70 cm : For lateral transfer.
- 70 x 110 cm : For use in patient repositioning.
- 110 x 70 cm (reversed opening) : For use in lifting patients out of bed.
- 70 x 140 cm : For use in patient repositioning.
- 70 x 140 cm (reversed opening) : For use when lifting patients in bed.
- 70 x 190 cm : For use in patient repositioning.
- 100 x 120 cm : For use in patient repositioning.
