

Pair of thermal gloves

- Women's model - 115038.F
- Men's model - 115038.H

These gloves are made from aluminised thermal fabric to keep hands warm for longer in cold weather. Light, thin, stretchy, the fabric retains heat.

To be worn as a glove or under-glove.

60% polyester, 20% nylon, 20% aluminised fabric.
Washable at 30°.

Exists in two models: woman or man

Variantes :

- Women's model
- Men's model
