

Gecko stable cane tip

- Gecko stabilising cane tip
- Allows it to be lifted by foot

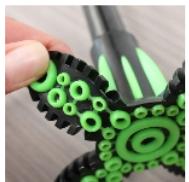

The Gecko cane tip replaces an existing standard tip and provides stability for a walking stick. It makes walking feel more dynamic and keeps the stick upright more effectively when resting. Its star shape is made to withstand heavy use. It has non-slip pads on the underside.

Provides stability for a walking stick

Allows for easy pick-up with the foot

Approximate diameter : 12 cm

Suitable for most walking sticks with a diameter of 19 mm
