

PositPro protective elbow pad

- 100% Made in France
- Prevents the formation of bedsores

The elbow pad protects the elbow's pressure points and prevents the formation of bedsores. It can be adjusted using two wide hook-and-loop straps. Filled with polyester fibre and viscoelastic memory foam. Waterproof and ventilated polyurethane-coated fabric.

Machine washable at 60°C or surface decontamination.

Dimensions: 28 x 16 cm.
