- Wide selection of two-tier tables
- Colours available from an extensive colour chart
- The entire Ecopostural range is available on request – contact us!

The Ecopostural range of tables is robust and easy to use. It is made from an epoxy-coated steel frame, an electric lift, a 5 cm thick medium-firm polyurethane foam cushion and waterproof upholstery that can be disinfected, with PVC/polyester upholstery and M2 fire rating and Sanitized® treatment.

Colours can be chosen from the Ecopostural colour chart.

Dimensions : Length 188 (75 + 112) x width 62 x height 48/91 cm.

4 Ecopostural tables with 2 sections to choose from :

- Standard model - Table with 70° reclining headrest operated by a rack and pinion mechanism. Electric height adjustment via a large foot pedal.

Maximum user weight : 135 kg.

Photos 5 and 6

- 150 kg model - Same as the standard model but equipped with a paper roll holder and wheels.

Maximum user weight : 150 kg.

Photo 1.

- Model equipped with tilt function : Same as standard model but equipped with a 70° tilt headrest and 15° backrest operated by a hydraulic cylinder. Equipped with a paper roll holder and wheels.

Maximum user weight : 135 kg.

Photos 2 and 3.

- High-resistance model - Table equipped with a high-resistance 250 kg structure, with a headrest that can be raised 70° by a hydraulic actuator. Equipped with a paper roll holder, wheels and a height control lever on the frame.
