Ergogliss folding transfer board

- 825015

This ErgoGliss transfer board consists of a folding base made of rigid but lightweight polypropylene and a rotating plate made of extra-slippery nylon. It allows caregivers to transfer patients from one bed to another effortlessly and without causing them any discomfort. Anti-allergenic, mold-proof, anti-bacterial, and fire-resistant.

Rigid polypropylene interior. Thermoplastic polyacetal handle.

Nylon fabric can be sterilized and washed at 60°C.

Dimensions : Length 170 x width 50 cm.
Folds in half to 87 cm.
Weight : 2.3 kg.

Maximum weight capacity : 200 kg

Date d'impression : 02/11/2026
