

Galapagos Bath lift

- 822068

• A relaxing and comfortable bath

Our Galapagos bath lift helps you to take a bath comfortably, as it gently lowers you to the bottom of your bathtub and lifts you up when you have finished. It has been designed with quality recycled lightweight plastic. This makes the bath lift easier to carry or store (and therefore easier to take with you when you're not at home). The lithium-ion battery that enables it to operate is located in the remote control. The motor and remote control are completely waterproof and can be used even underwater. The frame is robust and articulated, so that the seat can move up to 48 cm and down to a height of 8 cm. Safety function: the lift no longer descends if the remote control battery is not sufficiently charged and only allows the lift seat to be raised. Equipped with full upholstery, even on the side platforms.

Lifetime warranty on motor and structure, 2 years on battery and remote control.

Seat dimensions: width 40 x depth 50 x height 8 to 48 cm.
Width with side panels: 725 cm.
Backrest dimensions: width 36 x height 65 cm.
Base dimensions: width 31 x depth 61.2 cm.
Rise 45s, fall 30s.
Battery 15 V 2.2Ah.
Charging time 3 hours.
Maximum backrest inclination 45°.

The product does not require any assembly and can be used as soon as it is received.

Weight without remote control 9.6 kg.

Maximum supported weight 140 kg.
