- **Helps support the abdomen and prevent friction between the legs or ankles**
- **Made from the latest innovative materials**
- **Standard size or small, sold in packs of 2**
- **100% Made in France**

The PositPro cushions feature Technigel fibre, which provides exceptional comfort for patients. It exceeds the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It allows for optimal positioning to relieve pressure points.
They come with a removable Steritex cover, made from the most resistant polyurethane on the market. Innovative, ventilated and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in care homes and suitable for the most stringent requirements in environments with a risk of contamination.
Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 95°C. Resistant to chlorine and autoclaving.

Very soft and comfortable to the touch. 100% cotton fibre cover.

Coussin en forme de cylindre. Maintient et cale l'abdomen en position de décubitus latéral à 30°. S'utilise entre les jambes pour prévenir des frictions entre les genoux et les cuisses. S'utilise au niveau des chevilles
