- Aubergine - 829079.A
- Taupe colour - 829079

- **Positioning cushion for the arm or the neck**
- **Can be used in conjunction with the Positpro range.**
- **Material from the latest innovations**

Our PositPro cushions benefit from the technigel fibre, which gives unequalled comfort for the patient. It surpasses the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It provides optimal cushioning to relieve pressure on the support points. They are fitted with the Steritex removable cover, the most resistant polyurethane on the market. Innovative, breathable and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in the community and adapted to the most stringent requirements in environments at risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 90°C. Resistant to chlorine and autoclave.

Very soft and comfortable to the touch. Underwrap for 100% cotton fibre.

Multifunctional rectangular cushion. Holds and supports the arm. Holds and supports the neck in addition to the half-moon cushion. Allows the optimization and adjustment of the lateral and dorsal decubitus position.

Dimensions: 15 x 40 cm.
