

PositPro kidney-shaped cushion

- When we
- Aubergine 829081.A
- Grey 829081

- Supports and secures the upper limbs in a seated or lying position
- Supports and secures the head and neck
- Material based on the latest innovations

The PositPro cushions feature Technigel fibre, which provides exceptional comfort for patients. It exceeds the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It allows for optimal positioning to relieve pressure points.

They come with a removable Steritex cover, made from the most resistant polyurethane on the market. Innovative, ventilated and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in communal areas and suitable for the most stringent requirements in environments with a risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 95°C. Resistant to chlorine and autoclaving.

Very soft and comfortable to the touch. 100% cotton fibre cover.

Moon-shaped cushions. Supports and positions the upper limbs when seated in a chair or lying in a semi-Fowler position at 30°. Supports and positions the head and neck in a supine position. The use of this cushion relieves and distributes pressure points on the patient and prevents the development of pressure sores during nursing care.

Dimensions: 78 x 35 cm.
