

Terraillon Power Stepper circulatory stimulator

- Improves blood circulation
- Electrostimulation + pumping exercises

The brand new Terraillon circulatory stimulator is ideal for individuals suffering from poor blood circulation, muscle weakness, diabetes, and osteoarthritis. Its effects help alleviate heavy leg sensations and combat a sedentary lifestyle. It works through muscle electrostimulation (EMS) and transcutaneous electrical nerve stimulation (TENS). It also combines a pumping effect thanks to its exercise stepper function. You control all functions with your wireless remote control.

99 intensity levels and 15 wave variations. 2 pre-installed programmes.
LED display.
Comes with 2 adhesive electrodes.

Mains operated with adapter supplied.

Dimensions : 42.8 x 41.6 x 10.4 cm.
