

Mac Intosh blade

It works on the principle of compression. The medication is mixed with compressed air and sprayed into fine particles by colliding with the deflector. High nebulisation capacity (>0.3 ml/min). Suitable for adults and children.

Operates with 4 AA batteries (not included) or via USB connection (e.g. car).

Compact size 7 x 3.5 x 6.8 cm.

Weight 200 gr.
