

Non-retractable vacuum mattress

- **Unique patent: a plate placed under the upper fabric avoids the phenomenon of shrinkage when the vacuum is applied.**

Mattress composed of 3 sheets, assembled by high frequency welding. Upper fabric in coated PVC 700g/m², intermediate fabric in TPU, 3 patient support straps. 10 carrying handles on the periphery, 4 on each side. Waterproof. Equipped with a 1/4 tower valve. Complies with standard EN1865.

Dimensions: 110 x 220 cm. Weight 12 kg.

Guaranteed for 3 years.

Made in France.
