- **Lightweight flat folding frame**
- **Easy to move around**

The Nimbo children's rollator allows children to hold on firmly and walk safely. The walking frame surrounds the child securely and is equipped with comfortable handles. The walker is height-adjustable and flat folding for easy transport.

It has two safety features :

- A system that prevents backward movement to avoid loss of balance (can be disengaged to allow backward movement)

- A system that allows the front wheels to move in a straight line only (can be disengaged to allow the front wheels to move in multiple directions)

5-year warranty.
