- **Electric tilt and elevation**
- **Ideal for intensive use in public facilities**
- **Video presentation and instructions available**

The Ergotip shower chair is ideal for intensive use in care homes. It allows the patient to be positioned at the same height as the carer because of its height adjustment. Its tilting system allows the patient to be secured in a comfortable, zero-gravity position.
The ErgoTip chair is available in 3 seat widths to suit most body sizes. For each size, it is possible to choose between a standard seat with a cut-out or a seat with a U-shaped cut-out. Base with 4 wheels with brakes. Rear tilt 35° and front tilt -5°.
