

Lancing device

Secure blood glucose lancing device

The trauma of the sting and the pain are lessened.
Perfect grip for a precise gesture: the sampling needle retracts after activation of the mechanism by pressure once the gesture has been completed, and thus avoiding the risk of pricking and ensuring maximum safety.
2 models available: 23G or 28G.
Box of 100.

Variantes :

- 23G
- 28G
