Lumba Plus

- 838104

- **A proven stretching device**
- **Video presentation and instructions available below**

Lumba Plus uses the neuro-vertebral decompression technique recognised by INSERM (the French National Institute of Health and Medical Research), practised in chiropractic clinics, which aims to release pressure on the spine or the nerves in the spine. It is increasingly used in the treatment of back pain (pinched sciatic nerve, pinched disc, scoliosis, vertebral compression or lombar pain).

Maximum weight supported : 100 kg.

Foldable device.

Dimensions when in use : width 55 x depth 83 x height 106 cm.

Date d'impression : 03/11/2026
