

BioFango Hyperthermal mud

- 428144

- **Anti-inflammatory effect, particularly effective against oedema**

Classified as a Class I medical device, Thermalis hyperthermal mud is recommended for treating osteoarticular pain and muscle rigidity, and is mainly used for rheumatic conditions, polyarthritis, neuralgia, neuritis and osteoporosis.

Apply directly to the affected areas, warm or cold as needed.

Warm to treat muscle pain and stiffness, cold for its analgesic effect, which reduces inflammation.

Dermatologically tested, no preservatives.

Contents : 400 ml.
