- **Place under the legs of a chair or bed to raise them**
- **Heavy duty**

Bed raisers : simply place them under the legs of a chair or bed to raise them. The top is very wide to fit most furniture legs, and a central recess allows a wheel to be positioned safely.

Its elephant foot design allows it to withstand a user weight of 500 kg (set of 4).

Color varies depending on availability (black or gray)
