- **Easy to install and clean ramps for small thresholds**

Quickramps are made in one piece in 100 cm width and are easily cut to fit the width of your thresholds.

Installation is very simple.

Either by simply using double-sided adhesive (quicktape), or by pre-fixing quickpads (4 for the 100 cm width) and clipping the ramp on.

The quickpads can be glued or screwed to the floor.

You can choose from a variety of heights to finely adjust the passage heights.

Height	Depth	Weight
4 mm	5 cm	0.12 kg
8 mm	7.5 cm	0.27 kg
12 mm	12.5 cm	0.58 kg
16 mm	12.5 cm	0.88 kg
20 mm	15 cm	1.10 kg
28 mm	17.5 cm	X
40 mm	25 cm	X
52 mm	30 cm	X
60 mm	32,5 cm	X

Picto resistance 2000 kg (and yes!)
