(On restock - Available from 11/08/2025)

The Blue Tens is a device that connects to a smartphone application via Bluetooth. This application provides access to over 100 electrostimulation and TENS programmes. The number of programmes available are updated by the application, so there is no need to change devices. The application is very simple with clear menus and a photo showing where to place the electrodes before starting. The intensity can be easily adjusted using the device's dial or the application. Rechargeable lithium battery, 5 hours of continuous use. Certified for use in the medical sector.

This pack allows wireless use between the device and the electrodes.

Contents:

- 1 Bluetens,
- 4 S electrodes (5x5 cm),
- 4 M electrodes (5x10 cm),
- 1 surf electrode,
- 1 butterfly electrode,
- 1 USB charging cable,
- 1 Snap cable for connecting the electrodes,
- 1 manual,
- 1 pouch,
- 1 adapter for wireless electrodes
