Bagnoletto bed bath

- 823011

- **Prioritise a patient's physical and psychological well-being**
- **Can be used by a single operator**

The Bagnoletto system is comfortable, practical, fast and ensures thorough cleaning, reducing stress for the operator and discomfort for the bedridden patient.
It can be used directly on the patient's bed, offering all the benefits of a full bed bath. It allows the use of running water in any room, without the need for electricity.
The Bagnoletto is easily installed under the patient using its side straps, as with changing a sheet. Once in position, the edges are straightened and secured using corner loops. The system has several water drainage points and comes with two drainage hoses.
Material : Class 2C blue enamelled PVC with polyester fabric coating.
Can be cold disinfected.

Dimensions : Length 190 x width 85 x height 20 cm.
