PositPro patient rotation aid

- Standard - 829107

- Premium - 829144

- **2 different models**
- **Allows the patient to be turned easily**
- **Prevents friction on the skin**

This cushion allows caregivers to rotate patients very easily and, above all, limits the risk of friction and various types of pain. It allows the legs to be supported with a simple movement of the pelvis. Made in France.

Removable cover made of ultra-resistant PositPro Steritex fabric, designed in ventillated, waterproof, and sanitizable polyurethane.

Colour : grey.
Dimensions : Length: 53 x depth 43 x height 12.5 cm.

The Premium model has a Velcro strap to secure the person in a lateral position. The strap attaches to a bed rail at the desired length.
