

Venen Walker pressotherapy device

- 838003

- **For full legs**

Simulates the natural functioning of lymphatic drainage, restoring near-normal venous circulation. Two to three sessions per week are sufficient. Acts deeply on physical symptoms by restoring elasticity to the veins.

Includes two 85 cm leg sleeves (maximum thigh circumference 70 cm) with three compression chambers. Pressure up to 120mmHg.

Session duration adjustable from 0 to 60 minutes. Comes with a carry bag. Mains powered.

2-year warranty.
