## Janibell odour-resistant waist bin

- Bin 26 l - 817314
- Bin 41l - 817315
- Refill 26l - 817316
- Refill 41l - 817317

- **Double seal suitable for incontinence**

Janibell bins allow individuals to dispose of nappies and incontinence waste without any unpleasant odours. The double lid system provides improved sealing. Simply press the pedal to open the lid and access the bag holder. The bags are arranged in a continuous line, making them very economical to use. Once the end of the bag has been cut at the notch in the door, simply tie a knot so that you can slide in more nappies. This product is made of non-porous, highly durable resin. The smooth material is very easy to clean. Supplied with one bag.

2 models to choose from:
