

Bellagio reclining armchair

- 2 engines - Fabric - 821158.TISSU
- Relax - Microfibre - 821156.MICRO
- Relax - Fabric - 821156.TISSU

- **One design for three possibilities : relax, single motor lift and dual motor lift**
- **High-quality Okin motors for lifting**

Our new Bellagio armchair offers you a very modern Nordic design. It will fit perfectly in your interior, with a choice of 2 types of upholstery, either mottled grey fabric or anthracite microfiber.

You can choose between 3 different functions:

- Recliner: model without motor, with mechanical relax function. Tilting the backrest backwards triggers the leg rest to rise.
- Okin 1-motor electric recliner: the chair has a reclining function and a continuous electric reclining function, using a 2-button remote control. *(This model is no longer available for sale).*
- Okin 2-motor electric lift chair: same functions as the 1-motor lift chair, but you can operate the leg rest and the backrest independently in the relax position by means of a 4-button remote control. *(The colour anthracite microfiber is no longer available for sale).*

Wooden structure with metal frame.
