

MAXI XXXL SOFFISOF diaper cover

SOFFISOF Air Dry Panties with adhesive is an anatomically shaped absorbent aid made of pure cellulose fibres, super absorbent polymers and a waterproof outer layer to ensure maximum security against all types of leaks. The practical repositionable fastening tape makes this protection similar to classic panties. The new design has been developed to ensure optimum comfort. The gradually disappearing moisture indicator suggests when it is time to change. The outer layer helps to reduce the appearance of rashes and irritation, ensuring maximum safety and softness for even the most delicate skin. 175 to 210cm. Box of 4x15. Made in Italia.
