GIMA Classic double-head stethoscope

Double stainless steel bell. Double internal stainless steel lyre spring for durability and a moulded PVC tube. The double bell, with a diameter of 36 mm (paediatrics) and 47 mm, offers excellent low-frequency response. It is equipped with a cold guard and a fixing ring matching the colour of the stethoscope. 55 cm tubing.
Supplied with 2 pairs of PVC ear tips and a membrane.
Models and colours available :
- Standard : Black, light blue, royal blue, red, lilac.
- Paediatric : Blue
