

Theomatik non-slip one-handed meal tray

- Suitable for people with hemiplegia
- Anti-slip
- Stackable tray

Theomatik® is a meal tray designed to help people with hemiplegia eat independently. Theomatik® also helps to lighten the workload for care staff.

It consists of a small non-slip lunch plate, with practical cutting notches on the underside, 3 non-slip spaces to help open meal containers and a packaging cutter. Stackable tray for institutional use.

Dimensions : Length 36.5 x width 18.8 x height. 3 cm.

Weight 900 gr.

Dishwasher safe.
