

Rehasense LASER Rollator

- **Robust, lightweight structure**

The Laser rollator is the most economical in the Rehasense range, yet it retains its premium features: large non-slip TPE wheels, high-performance brakes and soft anatomical handles. Its simple folding system makes it easy to fold, store or carry. White/black colour.

Lightweight steel frame.

Overall dimensions: width 62.5 (folded 40.5) x depth 66 x height 77/99 cm.

Weight: 7.5 kg.

Seat dimensions: width 44.5 x depth 17 x height 60 cm.

Resistance : 130 kg.
