

## The HÔSEA mutli-purpose touch table

- 839011

- **Develops physical and cognitive aspects through play**
- **Ergonomic, therapeutic and versatile**

Hôsea is a touch table designed for care homes that has been in development for several years. It enables physical and cognitive aspects to be worked on, with support through play.

Ergonomic, therapeutic and versatile, this tool aims to enhance the experience of residents. It allows residents to work independently or in groups, creating social links and facilitating exchanges.

As well as supporting residents, Hôsea also plays an essential role in assisting care staff with their daily tasks. With this advanced technology, Hôsea optimises the work of care staff while improving residents' quality of life. With Hôsea, you benefit from an interface that is open to the use of various business software and web applications. You can easily access Windows, use Bluestack (play store android) and download photos, films or presentations. What's more, Hôsea is equipped with internet access via Wi-Fi or 4G, so you can stay connected at all times. Finally, we understand that each care facility has specific needs and budget constraints.

The Hôsea ergotherapy table 43-inch including the touch screen and all the components required for optimal use.

You'll benefit from Hôsea's exceptional quality, as well as our commitment to providing solutions tailored to care facilities. We're here to help you make the right choice for your residents and your budget.

Give your residents a unique and rewarding experience with Hôsea. Contact us now for more information and find out how Hôsea can transform your residential environment into a dynamic and interactive place, promoting the well-being and fulfilment of each of your residents.
