

Handilit safety tent

- **Ideal for ensuring that a child sleeps safely**
- **Inflatable product : easy to transport**

The Handilit tent can be set up in minutes and securely attached to the mattress or bed frame. It offers a child optimal visibility and allows air to circulate with the net panels on all four sides. It provides genuine peace of mind for family members and caregivers. Suitable for children with autism, encephalitis, Angelman syndrome, Smith-Magenis syndrome, ADHD, and severe sleepwalking. Can be positioned on a single or double bed. Comes with pump and carry bag.

Recommended maximum height : 5'1".

Ages 3 and up.

Dimensions : Length 74" x width 35" x height 33".

Color : light grey. (Pink or turquoise available upon request)
