

M4 leisure chair

- 875038

- Available from 17 July 2024
- Record turning circle: 82 cm
- The angle of the seat alone compensates for the slope of the ground

+ Exceptional handling and driving comfort

Our brand new M4 leisure chair is a concentrate of technology! Thanks to its 2 specially designed front wheels, its turning radius is reduced to 82 cm, giving our wheelchair exceptional manoeuvrability and ease of use. To reduce user apprehension, the seat angle compensates in real time for the slope of the ground (up to 25° backwards and 16° forwards).

The big new feature is the electrically adjustable seat height to suit different times of day or to adapt to the user's physiognomy.

Fully foldable for easy storage (one-touch button), and can be dismantled into 3 parts for storage in a car boot (seat, frame with rear wheels, front wheels) + battery.

Equipped with anti-tilt wheels, a remote control to lock the seat, armrests that can be raised and adjusted in height by 6 cm and an ergonomic backrest in breathable fabric.

Motor disengagement function for pushing the user.

Settings control via Smartphone app.

Thanks to its 4 independent suspensions, it can negotiate obstacles of up to 50 mm and a maximum gradient of 15°.

Maximum speed 6 km/h. 25.55V 15.6 aH battery.

Autonomy approx. 17 kms.

Overall dimensions: width 58 x depth 98 to 104 x height 93 to 108 cm.

Folded height 57 cm.

Weight: 49.5 kg.

Seat dimensions: width 45 x depth 45 x height 55.5 to 73 cm.

Capacity 115 kg.
