IDENTITÉS

Pedal-operated GHA hand sanitiser dispenser

The dispenser is very easy to use : one press of the pedal = one dose of product. It can be installed in all high-traffic areas (production entrances, public reception areas, etc.). No hand contact. Spout offset from the column to avoid contact when dispensing the product. Long operating time due to its 5L capacity (GEL IS NOT SUPPLIED). Supplied with a removable stainless steel information holder (A4 format), a drip tray and a lock. Made of stainless steel.
